2017 Pest Management Update Agenda

The focus of the first 2 hours will have more emphasis on research updates and important highlights from the 2017 field season.

The second session will be an interactive diagnostic troubleshooting exercise based on issues observed in the 2017 field season. The diagnostic and focused-topic trainings have been a big hit over the past two years, so don't miss 2017!

In addition to a new format, a packet of information will be supplied to all registered participants. The packet will include the usual handouts and
