

Wisconsin Drought Portal - [Drought.gov/states/wisconsin](https://drought.gov/states/wisconsin)

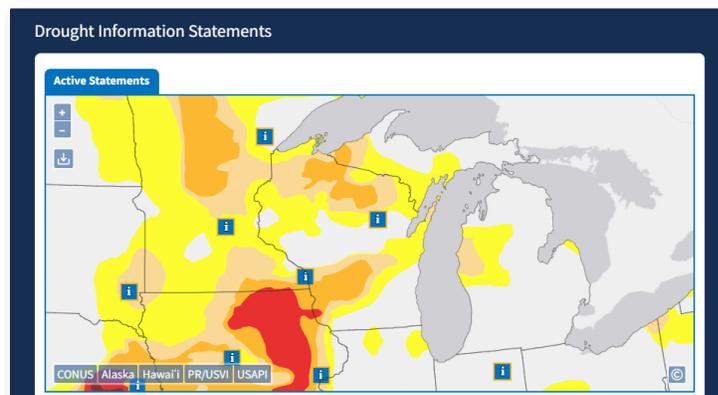

The screenshot shows the Drought.gov website interface. At the top, there are logos for NOAA and NIDIS (National Integrated Drought Information System). A search bar and social media icons (Facebook, Twitter, YouTube) are also present. Below the header is a navigation menu with options: Data and Maps, By Sector, By Location, Research and Learn, About, and News and Events. The main content area is titled 'BY LOCATION | STATES' and 'Wisconsin'. A sidebar on the right, titled 'On This Page', lists several links: Current Conditions, Drought in Wisconsin, Additional Maps, Outlooks and Forecasts, Historical Conditions, and Wisconsin Drought Resources.

National Weather Service Drought Information Statements

National Weather Service drought information statements provide up-to-date reports on the current drought situation for regional Weather Forecast Offices' county warning and forecast area. These timely statements summarize recent weather and hydrologic conditions, discuss local drought impacts, and provide a local drought outlook.
